# On Demand Profit Maker

The AutoHandWax™ Machine allows to have the vehicle Waxed and Buffed "On-Demand."

The system allows for quick activation of the Lammscloth elements for the customers who want either the Wax or the Wax and Buff.

The AutoHandWax™ excels thanks to the patented Lammscloth® material that works in a soft and buffing motion at lower RPMs; working at about the same speed and pressure you would use to do it by hand, we call it Auto Hand Wash.
