Series 5000

5M-220

The Model 5M-220 is the heart of the N/S modular design philosophy. Designed for maximum versatility and the ability to upgrade, this compact machine is able to fit into smaller bays and clean a variety of shapes and sizes of vehicles.

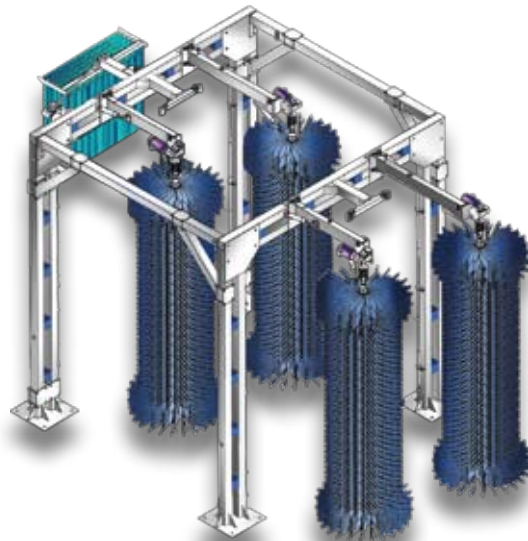

- One pair of side brushes
- One pair of Wrap-a-Round brushes
- One side to side top mitter curtain.

5M-400

The Model 5M-400 boasts double Wrap-A-Round brushes to thoroughly clean the front, sides and rear of each vehicle twice. Flexible brush couplings and gravity assisted arm operation allow the Series 5M-400 to adapt to vehicles of any size and shape.

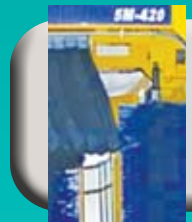

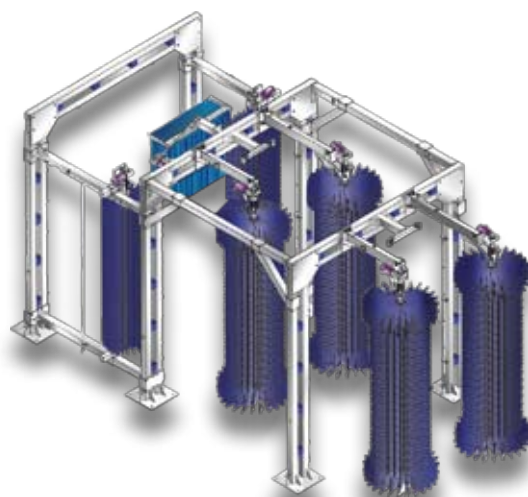

- Two pair of Wrap-a-Round brushes
- One side to side top mitter curtain.

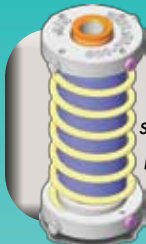

5M-420

The Model 5M-420 The Model 5M-420 with a rugged six leg extended frame offers additional cleaning assurance with double sets of Wrap-Around brushes and a pair of flexible mounted side brushes. A popular design for large fleets and transit authorities, the 420 is engineered for high volume and a long life.

- One pair of side brushes
- Two pair of Wrap-a-Round brushes
- One side to side top mitter curtain.

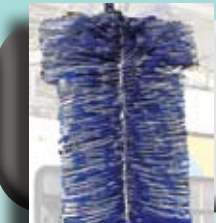

Feather Tipped Brushes.
N/S soft fiber brushes are made with pre-flagged polyethylene filament ends to ensure a thorough cleaning without disturbing the vehicles' paint finish. Can upgrade to the revolutionary Lammscloth.

SuperFlex™ Couplings
The SuperFlex™ Couplings give additional strength to the Wrap-a-Round brushes while providing increased flexibility for the heavy duty brushes used to wash larger vehicles.

Lammscloth™ Mitter Curtain
N/S's patented Lammscloth™ provides a thorough gentle cleaning for the tops and upper sides of all vehicles, while being safe on paint and glass surfaces.

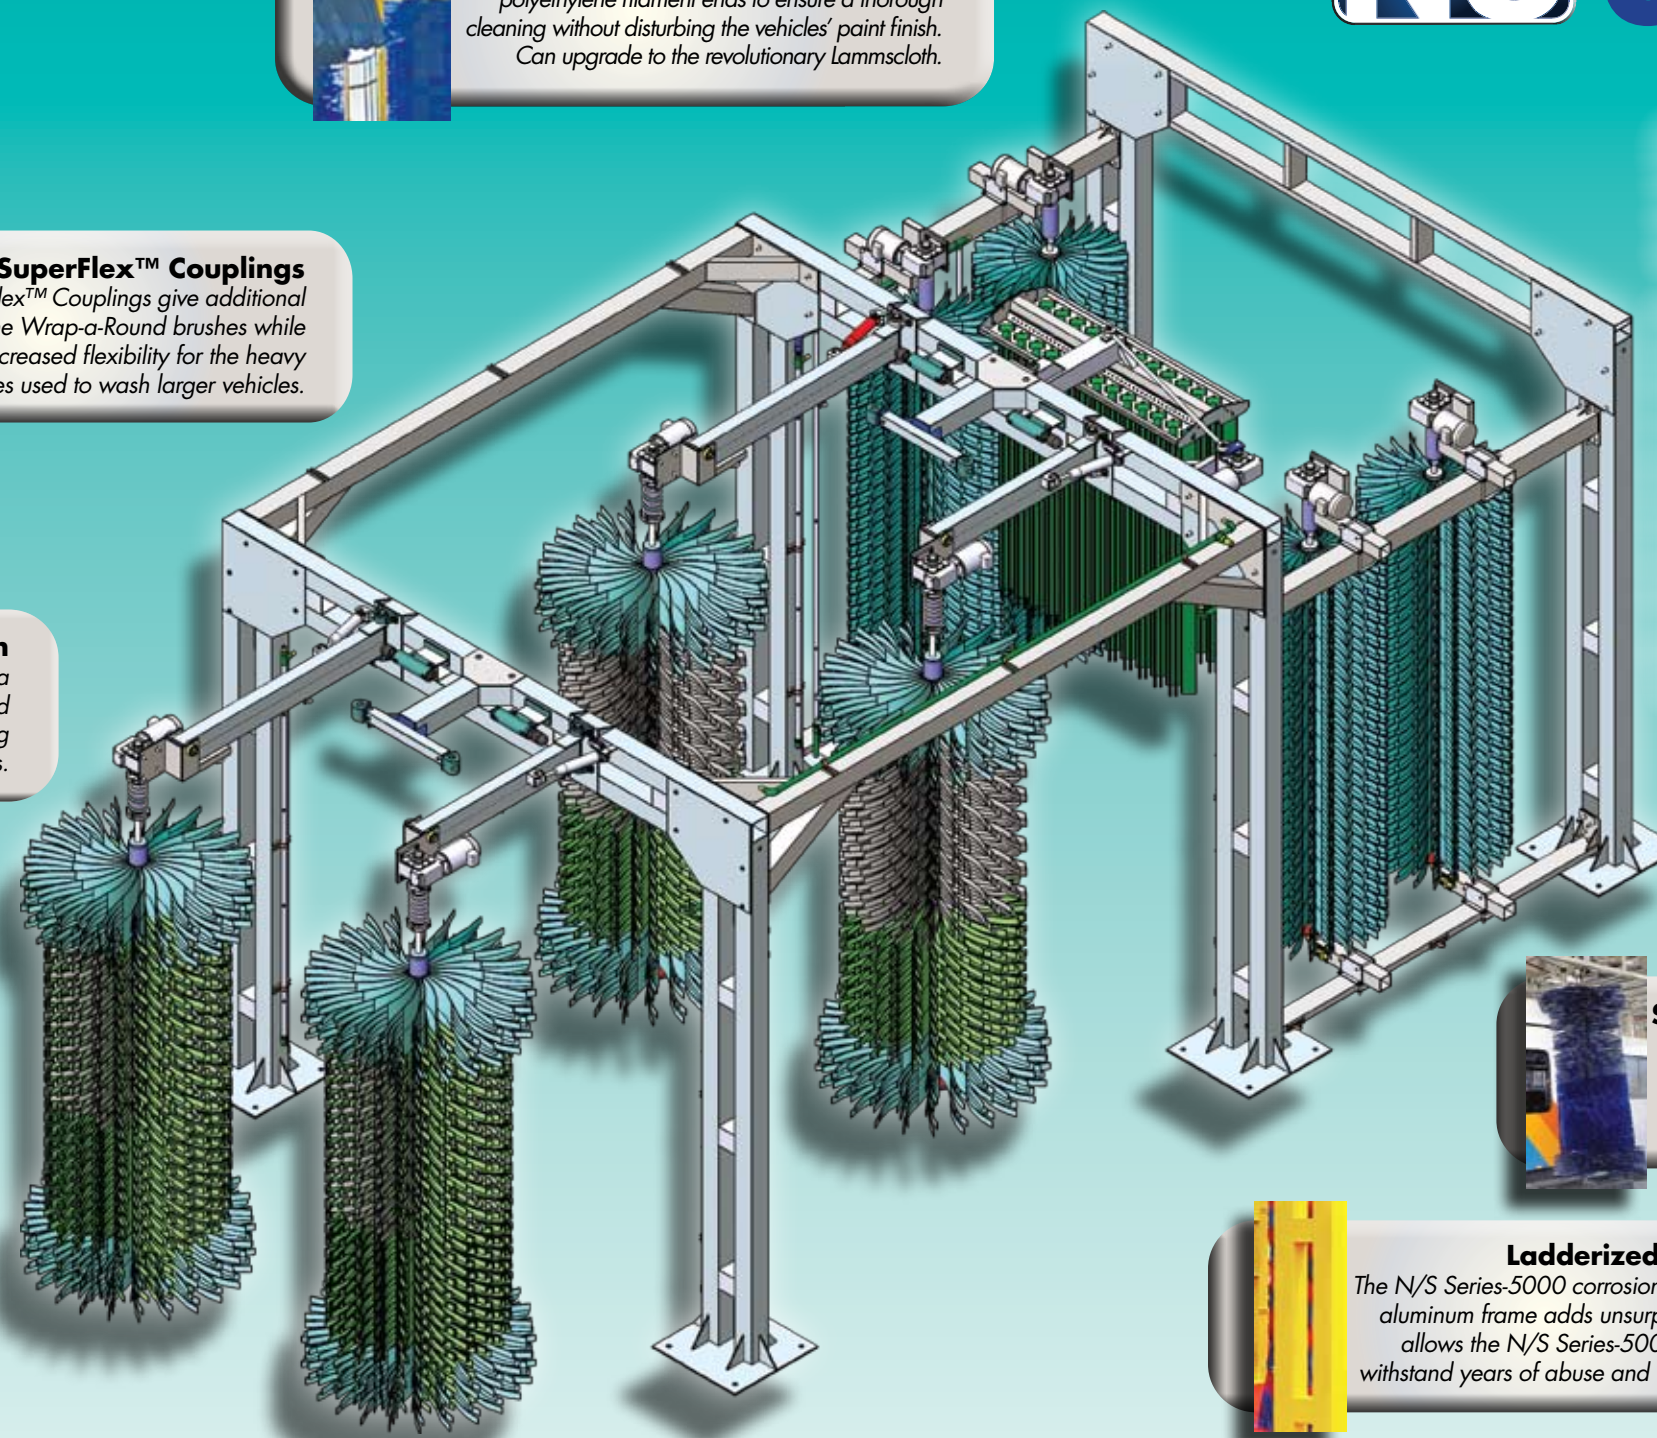

Variable Density Brushes.
N/S brushes are designed to adapt to the specific vehicle being washed with reduced density brush pelts in the mirror area for an overall clean bus.

Single Hung Wrap-a-Round Brushes
The patented N/S Corporation single hung Wrap-A-Round Brush design provides safe, low maintenance cleaning for the front, sides and rear of any vehicle.

Ladderized Construction
The N/S Series-5000 corrosion resistant structural aluminum frame adds unsurpassed rigidity and allows the N/S Series-5000 wash systems to withstand years of abuse and millions of washes.

- System Includes:**
- Two pair of side brushes,
 - Two pair of Wrap-a-Round brushes
 - One side to side top mitter curtain.

Vehicle Clearance:
Height: 12'- 0" *
Width: 8'- 5"
*Higher clearances available
Min. Bay Requirements:
Height: 15'- 0"
Width: 20'- 0"
Length:
Varies with system
Air Line:
1" compressed air line 100 psi

N/S Corporation is proud to announce the flagship of the N/S Transit Wash Line for the new millennium: the **Series 5000 systems**. Inspired by our NYCTA design for high volume, heavy-duty use; the **Series 5000** is modular in design and customized to the unique needs of transit authorities.

With 4 brush configurations as standard platforms, this series boasts significant improvements; such as rugged ladderized frame construction for extended life and system durability; improved chemical applicators; oscillating Lammscloth scrubbers for roofs and Wrap-a-Round brushes for better front and back coverage ensuring the cleanest vehicles in the transit wash industry.
