Our Above Ground Clarifiers are designed to condition used wash water by removing floating contaminants as small as 30 microns. The

water can then be safely sent down the drain or better yet, to our Reclaim System.

NS Clarifiers can easily be adapted to an existing set-up and sized to any volume; from car washes to bus and train installations.

A True *Breakthrough* that will save you from all the problems related with underground tanks

- **No Digging**
- **No Pumping**
- **No Shoring**
- **No Permits or Inspections**
- **No Odors**
- **No Expensive Maintenance**

Filter Cleaning Station

- Easily Wash dirty filters
- Two positions 45° & 180°
- Allows access to whole surface
- Hooks up to discharge hose
- Heavy duty powder coated aluminum
- Stores upright, no wasted space
- Wheels allow easy manurability
